Lenoir-Rhyne University, Hickory, NC — *BA, Philosophy*

Honors Thesis in Philosophy: *Imagining Identity*

Presented Research Paper at Lenoir-Rhyne Symposium on University Research and Creative Expression

Individual

Dewey, Nashville Software School Front-End Capstone

ReactJS app with full CRUD functionality that allows a user to run their own personal library and interact with other users' libraries. Users can compile a collection of items which they would like to make available for other users to borrow and can checkout items from other users' libraries. Dewey allows the user to keep track of items they are lending as well as items they are borrowing; it sets a due date for borrowed items, records who is borrowing the item, and allows messaging between borrowers and owners.

Group:

Nutshell:

ReactJS social networking app with full CRUD that allows the user to keep track of events, tasks and articles. The user can add friends and interact in a message board.

Nashville Pipes and Drums

Participate in community performances and provide free instruction to newcomers and students interested in learning to play bagpipes.
